Practice #02

■ Practice 2-4

Let's try to display on the screen exactly as shown in the example below.

■ Example

```
C:\Windows\system32\cmd.exe
"이것은 출력제어문자를 이용한 실습예제"
"출력제어문자는 '₩' 문자를 사용"
계속하려면 아무 키나 누르십시오 . . .
```

#Note:

1. Include both double quotes and single quotes in the output.
